

As the official display contractor and exclusive materials handler at Calgary TELUS Convention Centre (CTCC), our job is to make your show experience in Calgary as smooth and worry-free as possible.

A long history of show management – always on site.

ST. GEORGE SHOW SERVICE has a permanent office on-site, and a full-time staff of six who are always in uniform, always professional and ready to make your tradeshow or event a success. Our experience with the Calgary TELUS Convention Centre dates back more than 12 years.

Any size show. Always within timeline.

As soon as you sign your event agreements with Calgary TELUS Convention Centre (and sometimes even before then), ST. GEORGE SHOW SERVICE is on the job, working to develop floor plans and finalize the many details associated with floor management. And we stay on the job, carefully and competently meeting the needs of exhibitors and managing their relationship with the show before, during and after the event.
